

## What is your final opinion about the project?

### REASONS TO TAKE PART IN A COMENIUS PROJECT

- You make new friends all over the world - due to the international partner countries you meet new people and have the chance to develop new relationships.
- You learn how to present yourself in international groups and it is a great opportunity to represent your school in a foreign country.
- You can practice your English skills and you can learn some new Italian, Spanish or French words therefore you learn to communicate with other people who speak different languages
- You learn how to organize your time management and your group work.
- You learn to think and to act more independently.
- It was a good preparation for your working life - I learned how I can found and promote a business.
- Due to the company we found, you learn to take responsibility.
- You learn many aspects about the European economy and you learn about economy in your region.
- You experience foreign European countries and get to know differences and similarities of the way how people live and work. Living in a host family for a few days was a great chance.
- You have the chance to be part of an international project, where you get to know much information about Europe and foreign countries.
- It was a lot of fun to work with everyone!
- The people you meet and the great experiences with them. Besides you find out a lot of things about yourself. The good time you spend with your classmates and teachers
- You learn languages, mostly English, but also some other languages.
- The many places that you know and cultures.
- You learn to build a team with people you've met recently, making great achievements.
- We have learnt about business and entrepreneurs in the different countries. It seems to us not so difficult to become our own boss in the future. We feel more European and won't be afraid to work abroad if necessary.
- It was a great way to meet new people from other countries. We learnt team work and the importance of a good standard of communication.
- We've discovered new cultures and become more open-minded and more tolerant.
- We were able to discover new businesses throughout Europe, which can give us ideas for our future professional lives in a European environment.
- Thanks to this great project, we understand better what being European means, and we feel proud about belonging to such a big community. Now, we have European friends.
- It is a great way to study and practice languages with people who are really willing to communicate with one another.
- It was great to know other people's ideas
- You have a good time with your friends
- You live an experience that you won't do in the future
- You start a new friendship that will last for a long time
- You enlarge your knowledge learning different cultures, languages, ideas of business

## WHAT WOULD YOU DO DIFFERENTLY?

- It would be nice, if the project lasted longer. In addition, it would have been nice to make, all together, one last trip or a meeting.
- Idea to start or to finish the project with a trip to Brussels with all countries to get some general information about the European Union.
- A smaller German group might have been better to participate a little bit more (especially take part in more international working sessions).
- We all agree that the mobilities have been too short and that we would have liked to take part in them all instead of just one. We understand our group was numerous, though the experience has been so good that travelling to all the countries would have been perfect.
- The activities and tasks have been very interesting, but we are in our last two years at school and it has been difficult to find the time to work on it. The time schedule should have been organized better, since we have often had to work on the project and study for our exam at the same time. It was worthwhile though.
- When we visited business we found it hard to write things down at the same time.
- We thought there was a lot of work to be done during the two years, added to our daily school work
- We wish we had done some sports all together, for instance matches with the different teams.
